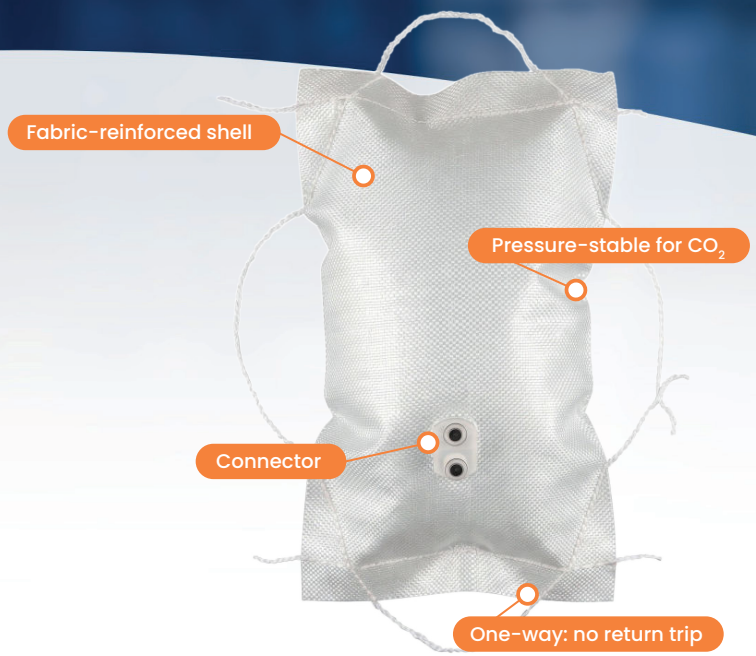
Bier-Bert in KIVO BiB



One-way, not returnable.
No more empties logistics.

No empty-keg return

No deposit or empties management

Less weight and less volume

- **Export-ready German beer**
  at a lower landed cost
- **Beer, container and dispensing know-how**
  from one source

Bier-Bert is the beer brand of MFF Schanktechnik and the first beer partner in Germany for the KIVO BiB system. The pressure-stable, fabric-reinforced one-way container is built for carbonated beverages and replaces the conventional returnable keg. Empty containers never need to be stored or shipped back. That makes exporting German beer easier and more affordable.

Your benefits

- No return transport of empty kegs
- No deposit or empties management
- Lower weight, less volume
- Better use of transport and storage
- Less effort in international markets
- Potential to cut transport CO_2

Ideal for

- Importers and distributors
- Hospitality and hotel groups
- Festivals and large events
- Markets with costly keg returns

KIVO BiB system by Kilglass Beverages GmbH.
MFF Schanktechnik is the exclusive event partner.
